

A top-down view of a person's hands typing on a silver laptop. To the right is a white cup of coffee with a latte art design on a saucer. Next to it is a smartphone and a magazine titled 'HIGHSNOBIETY' featuring a man in a hat. Below the laptop, a person's arm is visible, holding a pen over a notepad that says 'CREATIVITY IS CONTAGIOUS' and 'Pass it on'.

Website Development

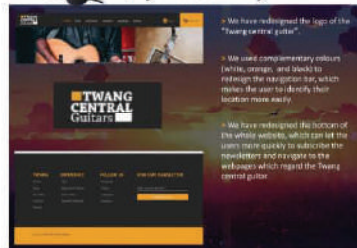

DESIGN & CODE

INTRODUCTION

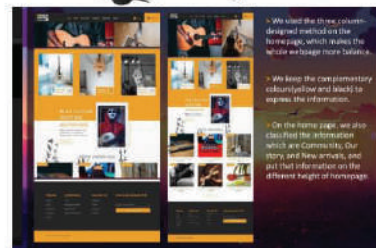

- ▶ The purpose of this project is to redesign the website of the Twangcentral
- ▶ Their old version of the website has zero responsive design. The webpage cannot even be wholly displayed on a smartphone screen. Thus, we need to design a mobile version of the website for them.
- ▶ Furthermore, due to selling high priced products, we need to be very careful to avoid any suspect black patterns.
